

Roger Allen Park – No Pets Policy

Effective immediately, Roger Allen Park will not permit pets of any kind. The park is designated as a sporting facility for youth athletes and can be very busy during peak seasons for our sporting leagues. Having pets on the premises introduces additional liabilities and potential incidents beyond human control. Additionally, the park is not equipped for pet waste disposal or potential damage caused by pets' curiosity.

Roger Allen Park is NOT a public park intended for pets to play.

The only exception to the no pets rule is for service animals. Service animals must be clearly identified by wearing their service vests or owners must have the appropriate service animal documentation on their person at all times.
